57 minutes including practice · 17 screens

Edition 2026-09-13-day1-simulation-v2

Practice notes

Use fictional details. Write before the example, practice aloud, and retry one specific part after feedback. During a live session, submit through your own login; this printable worksheet is a backup and does not submit for you. Unfinished work remains available when the presenter advances.

Follow Up Boss practice

Stay in the assigned TrueHQ session for the whole class. Every learner uses their own login and simulated record. The People list is a reference image: review the controls and submit a navigation explanation here. The simulator opens inside a contact; no separate Follow Up Boss account or training pond is needed. This walkthrough does not verify hands-on search. Arrange any coach-observed search check separately after class. Preserve the repair diagnosis step.

Coach where to click, save, and verify. The server check validates saved actions; it does not judge note usefulness. After a passed record changes, check it again. Each exercise is a separate scenario. The 57-minute allocation is a pilot; extend practice rather than skipping attempts.

Explain how you would find Avery

Using the People-list reference, explain how you would find Avery and confirm the source, assignment, and recent activity. Stay in TrueHQ.

Using the reference image, how would you find Avery and confirm the correct record? Name any control you need help finding.

Practice: save the appointment stage

Work in the simulated record below. Save your changes, then check your work here.

Complete the simulated record exercise in your own TrueHQ session. Save, reopen, and verify. Check your work here to submit the live-session result. Each exercise is a separate fictional case. Bring missing actions or an unclear control to your coach.

Practice: write the conversation note

Work in the simulated record below. Save your changes, then check your work here.

Complete the simulated record exercise in your own TrueHQ session. Save, reopen, and verify. Check your work here to submit the live-session result. Each exercise is a separate fictional case. Bring missing actions or an unclear

control to your coach.

Practice: set the missed-call task

Work in the simulated record below. Save your changes, then check your work here.

Complete the simulated record exercise in your own TrueHQ session. Save, reopen, and verify. Check your work here to submit the live-session result. Each exercise is a separate fictional case. Bring missing actions or an unclear control to your coach.

Nurture needs a conversation

Compare the engaged, later-timeline buyer with the record that went quiet.

For each case, what evidence would you need before moving this lead to nurture?

What next action would remain, and who owns it?

When would you review the record again?

Practice: repair Avery's record

Work in the simulated record below. Save your changes, then check your work here.

Complete the simulated record exercise in your own TrueHQ session. Save, reopen, and verify. Check your work here to submit the live-session result. Each exercise is a separate fictional case. Bring missing actions or an unclear control to your coach.

Practice: record the accepted offer

Work in the simulated record below. Save your changes, then check your work here.

Complete the simulated record exercise in your own TrueHQ session. Save, reopen, and verify. Check your work here to submit the live-session result. Each exercise is a separate fictional case. Bring missing actions or an unclear control to your coach.

Where will you start tomorrow?

Explain here how you will use tasks and new leads to plan your next calls after training.

Without looking back: what belongs in a useful contact record?

Before your next client conversation

Make the record update part of finishing the conversation.

After my next call, I will complete ____ before moving on.

My next follow-up block starts in ____.

My named coach and the example we will review.

What each signal means

Connection status is separate from participation. A submitted answer is separate from a completed action. A record check is separate from writing quality. Record who observed a speaking turn and who reviewed it; a peer observation or self-check is not coach sign-off. Practice readiness, quiz certification, and activation remain separate.

After the workshop

Live session: closing the session creates assignments for recall within 24 hours, a fresh case in three days, and coach review in seven days. The session creator owns follow-up across the selected teams unless a different authorized coach was selected. Confirm the displayed session timezone. Due and overdue work appears in Rep; the daily digest links to work due or awaiting review.

Self-paced study: arrange those same checks with a coach. If there has been no relevant client opportunity, use a new fictional case and mark real-work application as not yet observed.

Keep the first attempt and correction. A useful follow-up asks whether the agent can apply the skill in another case.
